WORK EXPERIENCE

Web Developer
Pak Marketing
08/2023 - 11/2023

Achievements/Tasks

- In my role as a proficient MEAN Stack Developer, I spearheaded the development of a web application tailored to automate property management processes for the Pak Tower Project.
- My responsibilities encompassed not only creating a user-friendly interface to optimize property management tasks for project managers but also implementing secure authentication measures to ensure data integrity and access control.
- These enhancements position the application as a crucial tool for professionals in property management.
- Through meticulous development, I also incorporated SEO optimization strategies to enhance the application's visibility and performance in online search results, further contributing to its overall effectiveness.

Web Developer Intern
Codistan Ventures
*07/2022 - 11/2022*

Achievements/Tasks

- Acquired proficiency in various web development tools and techniques
- Utilized the MEAN Stack to design and build diversified applications, incorporating tools for data management and API Integration
- Utilized strong communication and collaboration skills to facilitate effective interaction with stakeholders, ensuring the efficient achievement of project objectives.
- Consistently met project milestones and delivered outstanding results within designated timelines
